## **Dawson Calls for Riley Resignation**

(CONROE, TX) — After the public release of video following Commissioner Charlie Riley's fundraiser, in which he and others were apparently using public property for personal and campaign use, Pct 2 Commissioner candidate Brian Dawson issued the following statement.

"With the release of the video of Commissioner Charlie Riley utilizing public property for campaign use this weekend; because of Commissioner Riley currently being under indictment; because of his continued use of county property for personal and campaign purposes; because he made the motion to create a position in county government to employ a family member; because he has publicly argued he should be able to accept cash donations at his office with no oversight; and given he terminated an employee for similar actions, I call for Commissioner Riley to follow his own lead in this matter and resign immediately as Commissioner of Montgomery County Precinct 2.

"It is time we restore the people's faith in local government and their leaders. It is clear this cannot begin to happen with Commissioner Riley in office. Further, I will continue to make ethics a priority of both my campaign and my position as an elected official."
